We've been working hard to make sure that issue 15 coincides with the World Firefighters Games 08. The Games is a major event in the Fire Service calendar and is being held

in Liverpool at the end of the month. We have been covering the Games for a few editions and it has drummed up some serious interest; with participants coming from all around the globe to take part.

I would like to wish Merseyside Fire and Rescue all the best and in particular Erica who has been working hard to get the articles to us. I hope the hard work put in by all results in the best Games ever.

The games has a large presence in the features section as you would expect but we have some really good articles to accompany it. Nottinghamshire have highlighted some really good community initiatives which you should take a look at and theres also a piece on the Fire & Rescue Exhibition & Conference 2008. The Exhibition & Conference will be co-located with the World Firefighters Games, from 27-29 August 2008 at the brand new Arena and Convention Centre (ACC) in Liverpool. I hope you enjoy the read.
